Practical. Premium. Perfectly Audi.

The Audi Q5 range was built to do it all. A premium SUV that's as at home in the city as it is on a weekend escape, it combines design with innovation, experienced through a spacious, adaptable interior. Inside, there's room

for five, with clever touches that make every journey feel like a treat. Intuitive driver displays, Audi connect*, and the Audi smartphone interface keep you informed and entertained.

Design that moves you

Bold yet balanced, the Q5's design commands attention. The sculpted front, with its signature single-frame grille, flowing side lines that emphasise its quattro heritage, and a confident rear with chrome detailing, all add up to an unmistakably Audi presence.

For those who want more of an edge, the Audi SQ5 makes its presence felt with an even sportier stance. It features a wide octagonal grille and sculpted body, as well as optional OLED rear lights that adapt their signature to your driving mode. These details don't just catch the eye they hold it.

Inside, details like illuminated S door sills, brushed aluminium inlays, Fine Nappa leather sport seats, and optional massage functionality create an atmosphere that is sporty yet sophisticated because performance should look as good as it feels.

Performance

**Power,
where you need it**

Whether you're on city streets or open roads, the Q5 delivers agile handling and traction through quattro all-wheel drive and Audi drive select. Choose your mode, and the car adapts to you.

The SQ5 takes performance further. Its 3.0-litre TFSI engine, paired with an innovative electric compressor, takes you from 0 to 100 km/h in just 5.4 seconds.

With an 8-speed Tiptronic transmission and quattro with self-locking differential, power is delivered where it's needed most. Up to 70% can be directed to the front axle and 85% to the rear, offering superior traction across varied driving conditions.

Space that fits your life

From family outings to business ventures, the Q5 and SQ5 interiors flex to fit it all. Generous seating for five, intelligent storage, and premium materials make every drive feel effortless.

In the SQ5, sport-inspired details elevate the cabin even further. Stainless steel pedals, contrast stitching, and exclusive S badging remind you that this SUV was built with performance at its core. Add optional extras like massage seats, and you couldn't ask for more.

Ambience meets functionality

The Q5 and SQ5 offer customisable ambient lighting, allowing you to set the mood and highlight key interior surfaces. Subtle illumination enhances premium

materials and adds a sophisticated glow to every drive, making the cabin feel inviting, modern, and unmistakably Audi.

Intelligence in every beam

Signature LED headlights and LED rear combination lamps provide clear visibility and a distinctive look. Available Matrix LED headlights automatically adapt to road conditions, ensuring optimal illumination without

dazzling other drivers. For those seeking something sportier, the SQ5 can be equipped with OLED rear lights that dynamically adjust their signature according to driving mode. Every detail enhances both style and safety.

A detailed view of the Audi Q5 interior, focusing on the driver's side. The steering wheel is black with red stitching and the Audi logo. The instrument cluster is a virtual cockpit with digital gauges for speed, RPM, and navigation. The infotainment screen displays various menu options like RADIO, MEDIEN, TELEFON, NAVIGATION, PHONE APPS, FAHRZEUG, EINSTELL., and HILFE. The center console has climate controls and a gear shifter.

Smart tech, seamlessly integrated

Innovation comes standard. The Q5's intuitive driver displays, Audi connect*, and Audi smartphone interface make navigation, streaming, and route finding simple. Parking is smoother too, with Parking Aid Plus and intelligent assistance systems.

The SQ5 and SQ5 Sportback both include the Audi virtual cockpit, rear-view camera, and an advanced multimedia system with haptic touch feedback.

*Audi connect is not supported outside of South Africa

Designed for the driven ear

With the available Bang & Olufsen 3D Premium Sound System, the cabin becomes a concert hall on wheels. Carefully positioned speakers and a powerful amplifier ensure balanced, crystal-clear sound throughout the interior, adapting automatically to cabin conditions for an exceptional listening experience at every speed.

Experience comfort in style

The Q5 seats five in spacious comfort, with high-quality materials throughout. Optional features include massage functionality and heated seats.

The SQ5 elevates the cabin with sport seats in Fine Nappa leather, S badging, contrast stitching, and stainless-steel pedals, the perfect balance of sportiness and refinement.

Commanding presence starts on the ground

Both vehicles are available with a range of alloy wheel designs, from elegant 19-inch options to bold 21-inch statements for the SQ5.

Each wheel is engineered to complement the SUV's stance and provide precise handling, no matter the road.

Make It Your Own

Exterior Colours

Arkona White

Mythos Black

Navarra Blue

Glacier White

Manhattan Gray

District Green

A curated palette of sophisticated and sporty hues allows you to express individuality while highlighting the SUV's dynamic design. From timeless Glacier White and Mythos Black to striking Navarra Blue or District Green, every colour enhances the vehicle's confident presence.
