▶ Audi A4 allroad 12 V Mildhybrid

2016 - 2024

12 V Bleibatterie und 12 V Lithium-Ionen Batterie

 **12 V on-board Lithium-ion battery is automatically deactivated during accidents in which the airbag(s) deployed.**

For all other cases, in order to deactivate the on-board power supply the 12 V Lithium-ion battery has to be separately disconnected in addition to the 12 V lead acid battery. Therefore:

1. remove the cargo floor from the trunk
2. remove the spare tire and vehicle tool kit
3. remove the battery bar
4. separate the minus pole of the 12 V lead acid battery
5. separate the minus pole of the 12 V Lithium-ion battery

▶ Audi allroad 48 V Mildhybrid

2020 - 2024

12 V lead acid battery and 48 V Lithium-Ion battery

⚠ 48 V on-board Lithium-Ion battery is automatically deactivated during accidents in which the airbag(s) deployed.

For all other cases, in order to deactivate the on-board power supply the 48 V Lithium-ion battery has to be separately disconnected in addition to the 12 V lead acid battery. Therefore:

⚠ WARNING! Hazard due to electric arc at 48 V

⚠ Turn off ignition before separating the 48V battery!

For minimization the risc of electric arc it is recommended to disconnect the batteries as follows:

1. Remove the cargo floor from the trunk
2. Localize the batteries
3. Separate the minus pole of the 12 V lead acid battery
4. Pull out the communication connector plug of the 48 V Lithium-Ion battery
5. Separate the minus pole of the 48 V Lithium-Ion battery
