Every day, exceptionally done.

The Audi Q2 1.4 TFSI is compact yet commanding, designed for those who navigate the city with clarity and confidence. Intelligent engineering meets effortless

comfort and sharp design, delivering a car that fits your life seamlessly. No compromises, no waiting. What you want in a daily drive, you can have today.

The calm within
the storm

Performance

Turbocharged efficiency meets smooth precision. With 110 kW under the hood and a lightning-quick S tronic transmission, the Q2 1.4 TFSI accelerates with authority and cruises with composure.

Whether it's urban streets, highway stretches, or winding backroads, it responds to your intent while keeping fuel consumption in check. Sometimes, the right balance is everything.

Feel the thinking behind It

Every journey deserves support and style. The Q2's ergonomically sculpted seats combine premium materials with meticulous stitching, offering both posture-friendly support and subtle elegance. From morning commutes to weekend escapes, it holds you comfortably, letting the drive speak for itself.

Character with clarity

Subtle ambient LED lighting transforms the cabin into a personal retreat. Soft, purposeful illumination accentuates lines and surfaces, creating a sense of calm

even on the busiest evenings. It's more than lighting. It's intuition. It's a feeling that guides you to where you want to be.

Lead with light

Distinctive LED headlamps carve through the dark with precision, while rear lights leave a sharp, unmistakable signature. Every beam is intentional, every angle purposeful, combining safety with the Q2's confident visual identity. Clarity and character in every direction.

Progress has a pulse

The MMI touch display keeps everything intuitive, from navigation to calls and entertainment. Wireless smartphone integration ensures you stay connected without losing focus. Controls respond naturally, graphics are crisp, and every feature feels as though it anticipates your next move so you can focus on the road ahead.

Anticipates every move

The Q2 1.4 TFSI is vigilant without being intrusive. Parking sensors, lane assist, and a suite of driver assistance technologies provide reassurance at every turn.

It anticipates challenges so you can drive with calm confidence, every kilometre supported by intelligent awareness.

Poise found in purpose

Bold yet compact, every surface of the Q2 is purposeful. The angular single frame grille, precise contours, and geometric detailing create an athletic silhouette that feels contemporary yet timeless. It's not a concept; you don't need to imagine progress. It's here, ready to move and ready to impress.
